

Client Spotlight

The University of Notre Dame

Client Profile

The University of Notre Dame is a Catholic university dedicated to undergraduate education that nurtures the formation of mind, body, and spirit striving to be a force for good in the world.

Headquarters: Notre Dame, IN

Employees: 5,900

Industry: Higher Education

Benefits Philosophy:

Offer a competitive total rewards package that supports faculty, staff and their families to achieve a state of optimal well-being.

Benefit opportunity

Notre Dame offers several health programs and services and a wellness center to its employees, but quickly identified an opportunity to help employees with more difficult types of medical situations. They needed a virtual option with access to diverse specialists given the limitations of their location. Knowing that serious and complex medical conditions are costly, they also wanted a solution that could reduce costs.

Why Summus

For Notre Dame, Summus is the solution that:

- ▶ helps employees with serious or complex conditions get information, resources, and medical expertise they need
- ▶ provides quality medical specialists from across the country
- ▶ delivers fast virtual access to specialists, opposed to the traditional weeks- or months-long wait times for an appointment
- ▶ offers a simplified and easy process to connect with specialists and transfer medical records, alleviating burden to employees
- ▶ includes easy implementation and an engaging approach to employee outreach

Now that we have seen Summus in action, we couldn't be more impressed, from reducing costs to white glove service—it is a benefit that our employees not only appreciate, but use."

—Scott Hershberger, Compensation & Benefits Manager
