

Specialty Care Solutions for Health Plans

Summus is the platform to access the best medical insights and expertise. We make high-quality specialty care affordable, equitable, and easy to access for members and doctors.

Across the country, health plan members face long wait times to see specialists, resulting in increased complexity of conditions, increased medical costs with additional ER or lab visits, and significant frustration with a lengthy and confusing process. As a result, health plans see increased cost, increased and avoidable out of the network utilization, and negative satisfaction scores that affect Star ratings and CAHPS.

What better access can do for your plan

Direct-to-Member

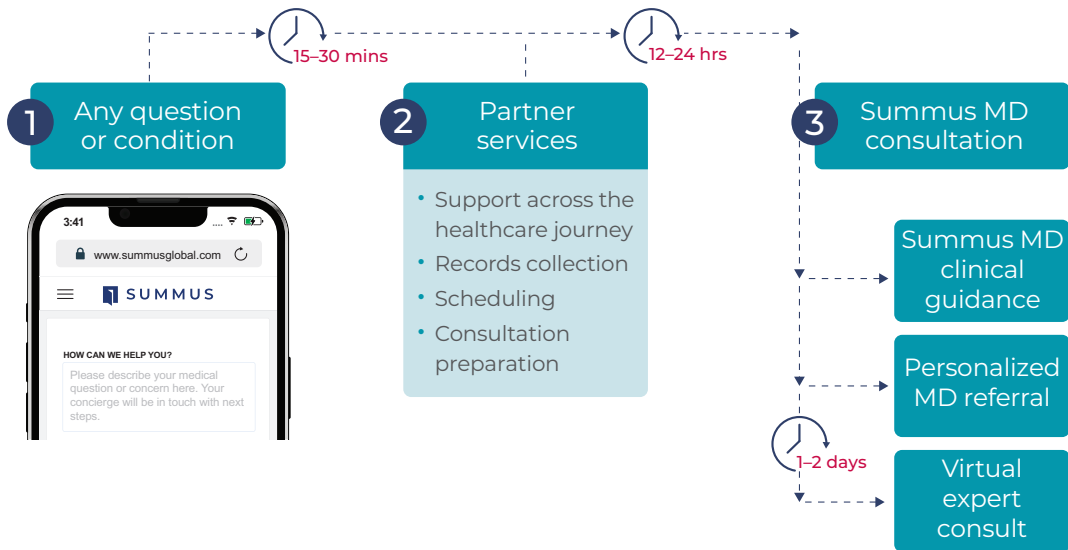

- ▶ **Maintain care with in-network providers**
- ▶ **Advance health equity goals** by eliminating perceived barriers to access and aligning doctors to member needs and preferences
- ▶ **Boost Medicare Star ratings and CAHPS** survey measures of satisfaction with fast access to leading specialists
- ▶ **Reduce disenrollment** by offering virtual visits with trusted specialists from top academic medical centers — at no cost to the member
- ▶ **9.4 member satisfaction**
- ▶ **34%** avoided surgeries
- ▶ **47%** reduction in treatment costs

Peer-to-Peer

- ▶ **Reduce in-person specialty visits** by offering specialty care econsults to primary care
- ▶ **Maintain care with in-network providers**
- ▶ **Support primary care providers** transitioning to value-based care arrangements by decreasing specialty care referrals and optimizing care
- ▶ **Reduce disenrollment** by offering eConsultations with trusted specialists from top academic medical centers — reducing member out-of-pocket costs
- ▶ **9.3 provider satisfaction**
- ▶ **58% reduction** in specialty care referrals
- ▶ **\$752 savings** per e-consult

Two ways to deploy our specialty care platform for better outcomes

Streamline access to 120+ specialties through Direct-to-Member

Empower primary care through Peer-to-Peer consults
